Stay connected with the Amana® brand smart thermostat

1 Getting Started

Tap the bottom navigation icons to move between the 4 main screens:

Home

Schedule

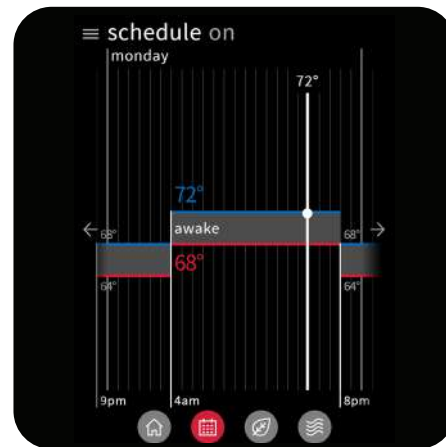

Away

Air Quality

A simple, central **home screen** displays the current temperature, the current mode, and a slider for adjusting the temperature. Users can also adjust the set point using the arrows. The top-level screens are accessible through icons at the bottom of this screen.

The **schedule screen** displays upcoming set point changes and scheduled times. Plus, it offers access to edit mode, where you can adjust the schedule using simple controls.

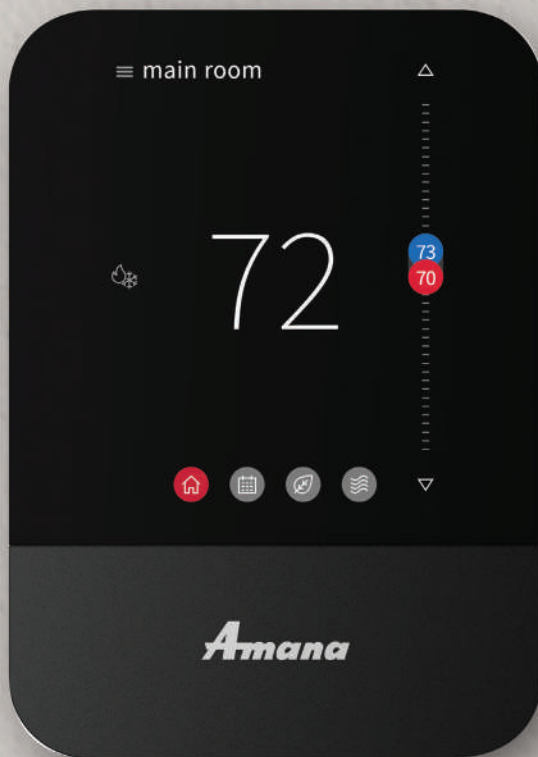

When you're away from home, you can help keep energy consumption down with away mode. The **away screen** displays energy-saving set points that can be invoked manually or automatically when the mobile app recognizes everyone is away.

Know what's in the air around your home. The **air quality screen** displays outdoor air quality and weather will be displayed when connected to the internet when the thermostat is added in the mobile app under home location.

When WiFi is enabled on your Amana® brand smart thermostat, the Amana home mobile app can help you manage and remotely control multiple Amana smart thermostats in your home.

Additional Smart Features

Enabling WiFi adds smart features to your thermostat:

- Automatic software updates.
- Remote control with mobile app.
- Voice control capabilities when connected to *Amazon Alexa* and/or *Google Assistant* devices.
 - Download the *Amazon Alexa* or the *Google Assistant* app and follow the instructions within the app to set up the Amana smart thermostat voice control capabilities properly.
- Geo-fencing, to detect when you are away from home, reducing energy costs.

You can connect the Amana brand smart thermostat to WiFi by following these steps:

1. Connect to WiFi

- Navigate to the settings menu. (Tap the menu icon in the top left of the home menu and select settings.)
- Tap **> Settings > WiFi**. (Ensure the use WiFi box is checked.)
- Tap networks **> Then select your network** from the list. (You'll be prompted to enter your network's password and then connect.)

2. Pair to App

Thermostat Steps

- Navigate to the settings menu. (Tap the menu icon in the top left of the home menu and select settings.)
- Tap **> Account**.
- Use the code displayed to input into the app.

App Steps

- Download the app and create an account. (iOS App Store or Google Play.)
- Add home location. (A prompt will appear after initial account creation.)
- Use the code displayed on the thermostat to pair.

NOTE: The pair code will expire in 15 minutes, but you can always get a new code if needed.

Connection to Amazon Alexa

Connecting Amana® brand smart thermostat to *Amazon Alexa* will enable voice command through *Alexa* like “*Alexa*, set my Kitchen to 75 degrees”

Connection to Amazon Alexa – How to connect

Complete setup on Amana brand smart thermostat and Amana brand home mobile app. Login to *Alexa* account from phone/tablet device. Use the instructions below:

1. In the *Alexa* app and tap the More icon (three horizontal lines) at the bottom right corner
2. Select Skills & Games
3. Click on Search icon at the top right corner
4. Type "Amana Home" in the search field and select
5. Select “Enable to use” (This will display Amana Home sign in window at login.daikinskyport.com)
6. Enter Amana Home mobile app login credentials (email and password)
7. Once the Skill is enabled, tap Discover Devices
8. Go to "Devices" tab from the bottom navigation icons
9. User can view and voice control the connected “Amana Home” thermostats

This will successfully link Amana brand smart thermostat to *Amazon Alexa*.

Voice Commands

- **Alexa**, set [my / the] {{THERMOSTAT NAME}} to (cool / heat / auto / off).
- **Alexa**, set [my / the] {{THERMOSTAT NAME}} [temperature] to X [degrees].
- **Alexa**, (increase / decrease) [my] {{THERMOSTAT NAME}} [temperature] by X [degrees].
- **Alexa**, (increase / decrease / lower / cool down / warm up) [the] {{THERMOSTAT NAME}}.
- **Alexa**, make [my] {{THERMOSTAT NAME}} (warmer / cooler).
- **Alexa**, what is {{THERMOSTAT NAME}} set to?

Connection to Google Home

Connecting Amana brand smart thermostat to *Google Home* will enable voice command through *Google Assistant* like “*Ok Google*, set my bedroom to cool”.

Connection to Google Home – How to connect

Complete setup on Amana brand smart thermostat and Amana home mobile app. Login to *Google Home* account from phone/tablet device

1. Click on "+" icon at the top left corner
2. Select “Set up device”
3. Select “Works with Google”
4. Click on Search icon at the top right corner
5. Type “Amana Home” and select (This will display Amana Home sign in window at login.daikinskyport.com)
6. Enter Amana home mobile app login credentials (email and password)

This will successfully link Amana brand smart thermostat to *Google Home*.

Voice Commands

- **Ok Google**, set [my / the] {{THERMOSTAT NAME}} to (cool/heat).
- **Ok Google**, turn (up / down) [the] {{THERMOSTAT NAME}}.
- **Ok Google**, set [my / the] {{THERMOSTAT NAME}} [temperature] to X [degrees].
- **Ok Google**, (increase / decrease) [my] {{THERMOSTAT NAME}} [temperature] by X [degrees].
- **Ok Google**, (increase / decrease) [my] {{THERMOSTAT NAME}}.
- **Ok Google**, make [my] {{THERMOSTAT NAME}} (warmer / cooler).
- **Ok Google**, what is {{THERMOSTAT NAME}} set to?

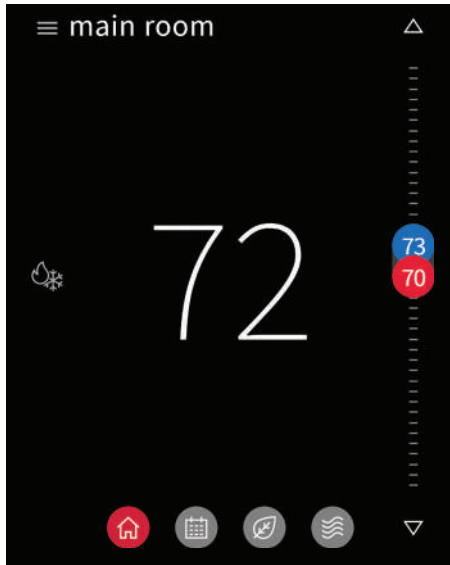

5

How to Switch Modes

For systems that have both heating and cooling, you have the ability to choose a mode: **auto** (the thermostat will select the mode based on the condition and set temperature), **cool** (only), **heat** (only), or **off**.

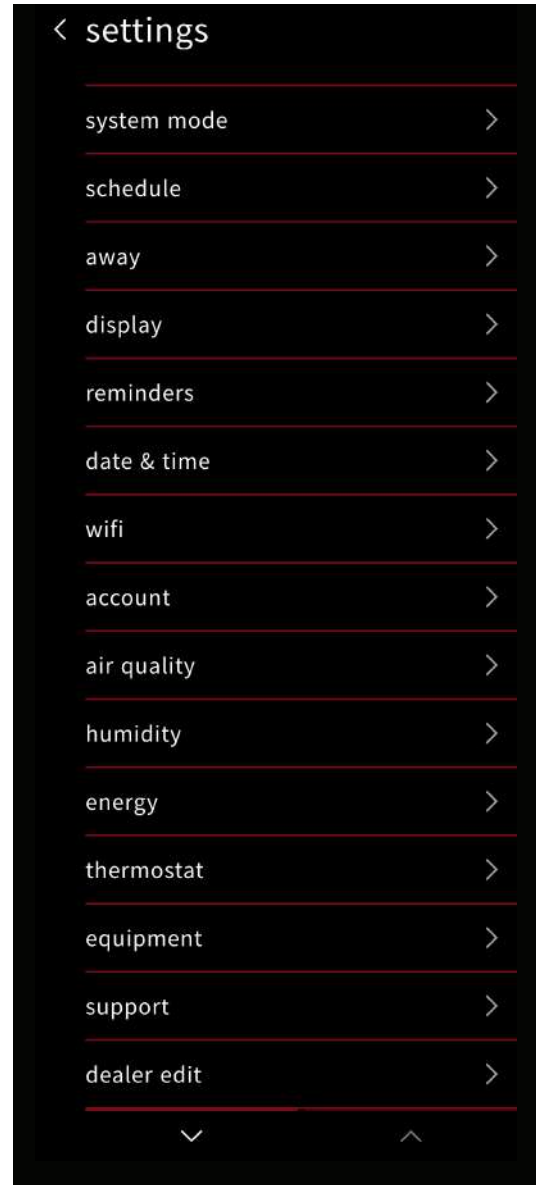

From the Home Screen

Simply tap the mode icons located on the left-hand side of the current temperature.

From the Settings Menu

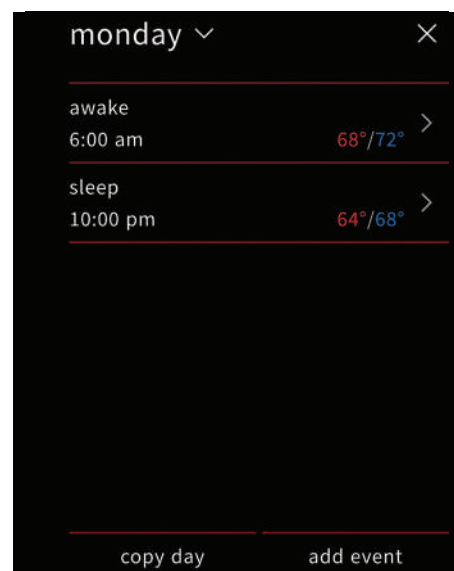

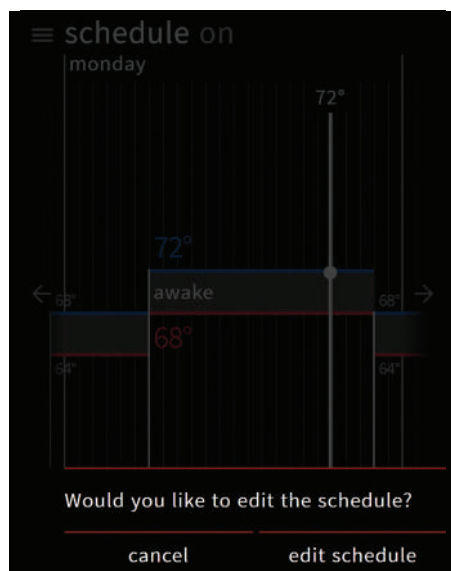

Access settings from any primary screen by tapping the menu icon. Then select system mode.

6 How to Create a Schedule

With the Amana® brand smart thermostat you can create a different schedule for each mode of the thermostat. If you have both heating and cooling available to you, your thermostat will have the ability to create a schedule for **Heat** (only), **Cool** (only), and **Auto** mode.

- Tap on the schedule icon  to bring up the schedule menu.
- Tap the menu icon located in the upper right-hand corner.
- Tap the edit schedule option.
- Select the day you wish to edit by tapping the header in the upper left-hand corner.

Add New or Edit Current Event

From the edit screen, tap the “add new event” or “edit event” option located at the bottom of the screen.

- Start Time: Tap and drag the hour and minute intervals to update.
- Event Label: Edit the name of the event.
- Event Action: Choose the action you want your system to perform.

Once you’ve finished making your changes be sure to tap save, which is in the lower right-hand corner.

Copy Schedules

To make things easy, we've added an option to copy a day's schedule. To do this:

- Select which day you would like to copy.
- Select “copy day” on the bottom right footer.
- Choose which days to copy to.

The day being copied will be greyed out, while the days that you are copying to will highlight white once selected.

The screenshot shows a mobile app interface with a dark background. At the top, there is a header "monday" with a dropdown arrow and a close button (X). Below this, there are two sections: "awake" and "sleep". The "awake" section shows "6:00 am" and a temperature range "68°/72°" with a right arrow. The "sleep" section shows "10:00 pm" and a temperature range "64°/68°" with a right arrow. Below these sections, there is a "copy day" section. It starts with "to:" followed by a row of seven buttons labeled "s", "m", "t", "w", "t", "f", and "s". The "s" button is highlighted with a white border. At the bottom of the "copy day" section, there are two buttons: "cancel" and "paste".

7

Customized Settings

With the Amana® brand smart thermostat customize settings to better suit your comfort needs.

— Navigate to the settings menu

(Tap the menu icon in the top left of the home menu and select settings.)

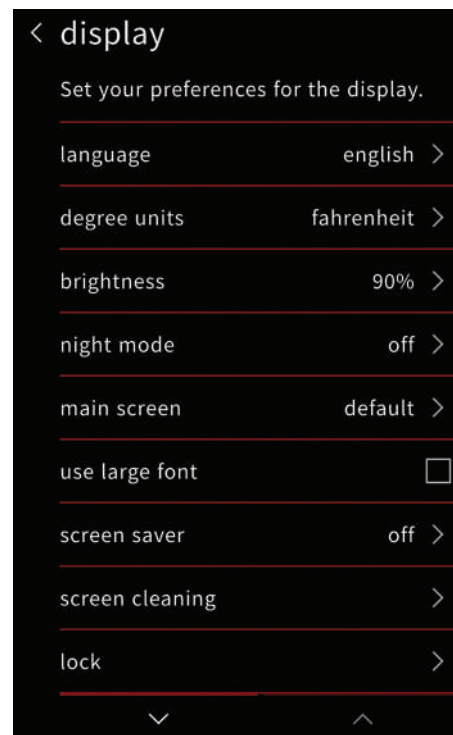

— Tap the Display option

(This will take you to the preference screen where updates can be made.)

Screen Savers

Choose between a selection of screen savers to be displayed when the thermostat is not being interacted with.

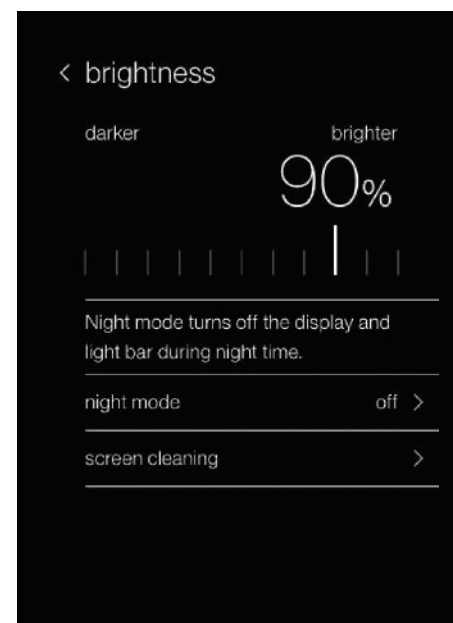

Night Mode

When enabled, night mode turns off the display during the selected schedule time.

To access this setting, tap the **brightness option** from the display menu.

If you encounter any issues or would like assistance with setting up your Amana brand smart thermostat, please contact Amana support at **855-402-7587** to be connected with our thermostat support team.

NOTE:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by Daikin could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

REMARQUE:

Cet équipement a été testé et déclaré conforme aux limites imposées aux appareils numériques de classe B, conformément à la section 15 du règlement de la FCC. Ces limites sont conçues pour fournir une protection raisonnable contre les interférences nuisibles dans une installation résidentielle. Cet équipement génère, utilise et peut émettre des fréquences radio et, s'il n'est pas installé et utilisé conformément aux instructions, il peut causer des interférences nuisibles aux radiocommunications. Cependant, rien ne garantit que des interférences ne se produiront pas dans une installation particulière. Si cet équipement provoque des interférences nuisant à la réception de la radio ou de la télévision, ce qui peut être déterminé en éteignant et en rallumant l'équipement, l'utilisateur est invité à tenter de corriger les interférences en appliquant l'une ou plusieurs des mesures suivantes:

- Réorienter ou déplacer l'antenne de réception.
- Augmenter la distance entre l'équipement et le récepteur.
- Connecter l'équipement à une prise d'un circuit différent de celui auquel le récepteur est connecté.
- Consulter le concessionnaire ou un technicien expérimenté en radio/télévision pour obtenir de l'aide.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

1. L'appareil ne doit pas produire de brouillage;
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement
